

OPENING MINDS:

LEARNING FROM AND ABOUT IMMIGRANTS AND REFUGEES

Too often, the stories of immigrants and refugees are reduced to a sound bite or clickbait headline. What are the personal stories of immigrants and refugees in our community? What are their experiences, and how do those differ from the stories presented by the media and politicians? How can we better support all members of our community?

As part of the City of East Lansing's Human Relations Commission's ongoing commitment to honoring diversity, we will host a screening of the short film *What Happens to a Dream Deferred*, followed by a facilitated panel discussion.

All interested community members are invited to attend.
